SOLDIERS POINT MARINA

Vol 20 Issue 5

COURTESY LEXUS

Don't forget if you need to re-provision or just have some time off the water, Soldiers Point Marina has made available a Lexus courtesy vehicle for all marina guests to use. If you live interstate, why not take advantage of our complimentary Newcastle airport pick up / drop off service. Call the office for bookings.

SPM WATER BOTTLES

Soldiers Point Marina has signed a pledge to Eliminate Single-Use Plastics. A ceramic water filter is available in the lounge to refill your complimentary stainless steel water bottle. Permanent berth holders are invited to visit the marina office to collect one.

PET FRIENDLY POLICY

All pets are welcome at Soldiers Point Marina, our policy asks that they always remain on their lead while on the premises. And to ensure the enjoyment of everyone we ask that you clean up any little (or big!) mess that they make. Our staff offer complimentary dog walking and puppy sitting services.

COVID-19 UPDATE

Soldiers Point Marina remains open as an "Essential Service" If you are sick stay home! Please do not enter the marina if you have flu like symptoms. For everyone's safety, we are sanitising everything! You will find hand sanitiser in the admin office, laundry, America's Cup Lounge and the entry to personal care facilities, please use it on entry and exit to each of these rooms. Fuel is still available for purchase, if the fuel dock is unattended please call the office. The marina is under 24 hour CCTV surveillance. We have closed the Boardroom, Gym and Sauna. The America's Cup Lounge is still open however, we request that you follow social distancing rules. Unfortunately, we needed to cancel all our planned events moving forward including our boating clinics and Captain's BBQ nights. Rest assured we will have these back bigger and better next year.

The Deck Cafe Restaurant is open for takeaway from 5pm - call 02 4919 1502
The Boat Shed is open for takeaway from 8am till 2pm - call 0468 544 319

ANZAC DAY 2020

ANZAC Day was a little different this year!

Every other year we have celebrated by delivering home-made ANZAC biscuits to your boat. Unfortunately with everyone doing the right thing and staying home because of COVID-19, there wasn't anyone around to eat them. Dogman and Rabbitwoman enjoyed them with a coffee at the Table of Love.

We look forward to everything being back to normal soon and having the opportunity to once again share our little unexpected surprises with you and your boating family.

"Great amenities, upper end with services of all types, friendly staff and management. Quality. Very impressive."

Shore Power - Lead Tagging

It's time again to get your safety tagging done for all shore to boat power leads in use at the marina. Safety tags are required on an annual basis to comply with personal safety and WorkCover regulations. All 240V, American Plugs and 3 phase shore power leads in use at the marina are required to be tagged by a certified and licensed electrician. We have secured the same price as last year - \$35 per plug and have arranged for our tagger to complete the work in early June 2020 or you can arrange for your leads to be tagged using your own licensed electrician of your choice. If you choose to get your own tagging completed, please email your certificate of evidence to the office db@soldiersptmarina.com.au

We will commence tagging early June 2020 and unless otherwise notified, checks will be carried out on your leads and invoiced accordingly.

As always we appreciate your assistance in keeping the marina a safe place to visit.

Captain's Table BBQ Dinner

Our first Captain's Table BBQ Dinner in late January was well received by all who attended. Below are some photos of the fun - thanks to Milton for taking the lead on the BBQ. We have scheduled more for next season - keep an eye on your emails and this newsletter for confirmed dates as the season approaches - I'm sure it will be here before we know it.
